150-341001	Intro Kit	92.25
150-341002	Powder 6oz	73.25
150-341091	Liquid 6oz	52.50

Dentsply-Caulk-Lynal Tissue conditioner and temporary reliner. (Contains 120 gm. Powder, 90 ml. liquid and 15 ml. separator.)

130-653006	Kit	106.75
------------	-----	--------

Bosworth-Softone Tissue conditioner and functional material that restores, massages and rehabilitates damaged tissue before a new denture rebase or reline. (Standard-kit contains 3 oz. white powder, 4 oz. liquid, powder measure, liquid measure and plastic mixing cup.)

105-0921775	Kit	47.50
105-0921776	Powder 3oz	25.75
105-0921777	Liquid 4oz	23.50

Dentsply-Professional-Visco-Gel - Tissue treatment material is for chairside operation as a self-curing material. Its therapeutic cushioning allows the patient to wear dentures during healing of damaged, ulcerated and sore tissue, superior adhesion and controlled flow prevent gagging and discomfort. (Contains 120gm Powder, 90ml liquid, 15ml lubricant, mixing vessel & powder measure.)

060-A72100	Kit	101.95
------------	-----	--------

Stain Kits

CG America-Orbit-LC light-cured porcelain staining system. (Complete-kit contains 14 stain powders 2 g, glaze powder 2 g, light-cure liquid 7 g, color table, 2 pinsel brushes, plastic spatula and 4 mini mixing palettes.)

150-000430	Liquid 7gm	48.95
150-333101	Kit	355.50

Taub-Minute-Stain for the instant shading or staining of acrylic veneers and bridges. (Small-kit contains yellow, cervical blend and gray, clear glaze and thinner.) (Large-kit contains yellow, cervical blend, gray, brown, blue, white, pink, clear glaze and thinner.)

650-MINS3	Small Kit	51.25
650-MINS7	Larger Kit	89.25
650-MST2	Thinner	6.95

Acrylic Accessories

Enhance-Acrylic-Sable Brushes for the application of stains, sealants and glazes. Angled or straight.

Angled

580-2918000A	000	2.75	12 @ 2.50
580-291800A	00	2.75	12 @ 2.50

Jelenko-Burlew-Dryfoil adhesive foil. (100 sheets per box.)

335-50270010	Dryfoil Box	16.95
--------------	-------------	-------

Temrex-Dapperdan- Disposable, plastic dappen dishes and finger holder. (1,000 per box.)

665-2620	1,000 per box	47.50
----------	---------------	-------

EC-Moore-Dappen-Dishes are disposable, plastic dappen dishes for mixing acrylic materials. Assorted colors. 200/pack

455-DDASST	Dappen Dishes	12.75
------------	---------------	-------

Pascal-Hydent Fast-apply to denture with the touch of a button., accurate-pressure points are clearly defined. Even application with aerosol spray, easily cleaned from dentures, contains no cfs. (26 gm. Can.)

530-05100	Pascal Hydent	14.50	4 @ 13.75
-----------	---------------	-------	-----------

Lang-Jet-Seal is a surface sealant to be used when sealing dentures, temporary crowns and braces, restorations and denture repairs. It fills in surface porosity and increases color stability. It is an auto-polymerizing resin that paints on to any acrylic surface. It air dries in about 1 minute and provides a hard surface finish with excellent aesthetics. (29 ml. bottle.)

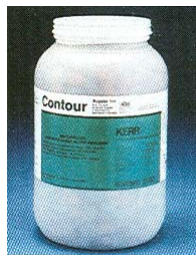

365-4102c	Lang Jet Seal	37.95
-----------	---------------	-------

Pulpdent-Mixing-Bowls for mixing acrylic. Designed with a suction cup bottom to keep them stationary while mixing. Hardened acrylic easily snaps out without any mess. (2-8 cc., 30 cc. and 80 cc.)

570-BMI	Large 80cc	10.50
570-BMM2	Medium 30cc 3pk	14.95
570-BMS3	Small 8cc 3pk	14.95

Alloys

Kerr-Contour-Dispersed Phase Alloy Self-Activating Capsules - Contour's unique blend of spherical and conventional cut particles give firm packing resistance during placement, yet smooth carving often associated with spherical-type amalgam. Traditional color coding system.

Kerr-Tytin-FC is a technically-advanced material that combines all the desirable characteristics of admixed alloys. It has good, firm condensation resistance, yet is plastic enough to easily flow into the corners. It also has smooth finishing characteristics, excellent mechanical properties, good appearance and controlled expansion to minimize leakage.

Ivoclar-Vivadent-Valiant Snap Set has a remarkable 5 minute set-time, offers high one hour compressive strength: 55,000 psi and corrosion resistance.

Ivoclar-Vivadent-Valiant PH.D is the unique phase dispersed amalgam that is continually rated #1 by discriminating dentists. Its high copper and palladium provorrosive resistance and elimination of the gamma-II phase.

Ivoclar-Vivadent-Valiant PH.D XT is the same great formulation as Valiant Ph.D with extended time. (50 or 500 per box.)

Ivoclar-Vivadent-Valiant Spherical Alloy offers you high one hour compressive strength of 53,000 psi, which is 62% of its 24 hour strength.

Amalgamators

Zenith-Deluxe-Amalgamator features a quiet high speed, direct-drive hi-torque motor, shock-mounted, 1-speed and an attractive design. Fiberglass arms will hold and mix all capsules. Ivory case with smoked cover for optimum protection. 110 volts. 90 day warranty.

266-61033	Variable Speed	383.95
-----------	----------------	--------

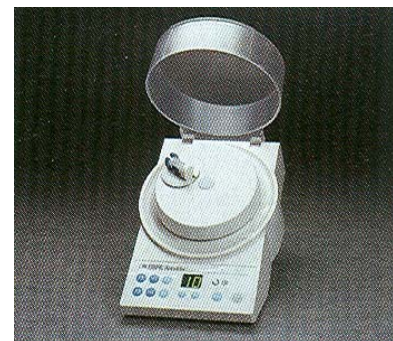

Kerr-Optimix- Computerized mixing system. Microprocessor controlled, continuously recalibrates for consistent mixes. Adjust for capsule weight and arm speed. Self diagnostic. 110 volts.

350-910060	Kerr OptiMix	775.95
------------	--------------	--------

Dentsply-Caulk-Promix is a variable speed unit with touch pad controls and an LED display. Programmable, pre-set memories, sealed mixing area and a sleek ergonomic design. 10"W x 9-7/8"D x 5-2/4"H, 115 volts.

130-672200	ProMix	673.95
------------	--------	--------

3M ESPE-Rotomix mixing device that utilizes a rotational motion to homogeneously mix materials, including glass ionomer restoratives, cements and amalgams. A second automatic centrifugal cycle squeezes air out of the material to virtually eliminate air voids. Homogeneous mix reduces forces needed to extrude material from capsules, as well as reduces required mixing times. Programmable keypad. 1-year warranty. 110-volts.

244-76310	Rotomix	699.95
-----------	---------	--------
